

Privilege 51

The Privilege 51, the largest Privilege cat when it was introduced in 1994, was built to offer owners or charter customers the plenty of cruising luxury. The standard layout has 4 well furnished staterooms, finished in wood, with en-suite heads and shower rooms, as do the smaller boats in the line - only they are even more spacious on the 51. The saloon has large windows, is finished in cherry wood, and has two tables with settee seating. A crew's double cabin is in the nacelle forward of the bridgedeck saloon. The Privilege 51 provides ample facilities for outdoor leisure. The cockpit can accommodate two tables for alfresco dining; there are sunbathing areas alongside the cockpit port and starboard; bathing platforms give easy access to the water.

The Privilege 51 is carefully designed so that she can be sailed easily without disturbing other activities on board. She is seakindly with a pleasant motion and her length gives her very good passage making capability.

Sails and rigging:

- Fractional sloop rig
- Fully battened main
- Optional symmetrical and asymmetrical spinnaker

Deck layout and gear:

- Large cockpit with 2 tables and seating
